LEWCOTT AND POLYCLAD REPRESENTED AT TASK FORCE MEETING

MILLBURY. The third task force meeting to discuss concerns surrounding operations at the Lewcott and Polyclad facilities on Providence Road took place on February 12, 1987.

Present for the first time, were representatives of both companies; Jean Lewis, president of Lewcott Chemical, and Steve Ostrow, vice president of engineering at Polyclad's headquarters in Franklin, N.H.

Results of a cancer study done by the State Department of Public Health were expected to be released at the meeting, but Linda Roach, administrative assistant to Rep. Kollios, announced that the Department needs additional environmental data from both Lewcott and Polyclad before issuing a report.

John Desmond, a representative of the Department of Environmental Quality Engineering (DEQE) gave an update on soil sampling taken from an area in the rear of the plant. Desmond stated that the information is in the "raw stages and currently being evaluated." He also stated that DEQE is working closely with the Department of Public Health "in ascertaining what this means and where do we go from here."

Craig Dunlop, also of the DEQE, then reported on the status of air pollution control equipment at the Lewcott facility and stated that they (Lewcott) should be in compliance with an October 31 deadline. Carol Perry and Steven Stearns, members of the Millbury Awareness Group, questioned what steps would be taken if the pollution control equipment fails to operate properly. "Can you walk in and say, 'You are not in compliance, you must shut this process down now. You are impacting the community.'" Desmond responded that the DEQE does have emergency regulations. "We will protect the public health. That's what our responsibility is, but no one can guarantee you that every piece of equipment is going to operate at 100%, 100% of the time."

Arthur Moore, representing the Millbury Planning Board, then asked if there is any possibility that the Worcester facility, or any processes from the Worcester facility, would be moved to Millbury.

Selectman Wynton Adams replied, "If they were to expand the physical plant, all the proper permitting work would have to be done before they did that. If they were to increase the amount of product, we would have no control over that."

When asked to address the increased production question, John Desmond stated, "As the operation stands now, I would feel they should maintain their operation as it presently is, until they are in compliance."

The meeting then turned its attention to Fire Chief Tom Nault who referred to a Contingency Plan submitted by the Lewcott Corporation dealing with emergency measures to be taken in the event of a fire or hazardous waste spill. Chief Nault expressed concern over a number of issues. Referring to Lewcott's mention of an "emergency coordinator" Nault stated, "If he is going to be in charge of plant personnel, on plant property, I can concur. If he's intending to be in charge of the site in an emergency situation, then I take a very strong position against that." Nault made it clear that if the fire department is involved in an emergency, the senior officer of the fire department will be in charge.

In addition, Nault pointed out that the plan states that the fire department is not to be notified of a fire unless company employees are unable to handle the situation. Expressing concern Nault stated, "I have to take a very strong position against that. I feel very strongly that the fire department should be notified immediately if it's anything, even a waste basket."

PROJECT ALERT

An Innovative Supplement to Classroom Teaching

Education is frequently the recipient of adverse criticism, much of it warranted. However, occasionally something occurs in education that stirs the hearts and minds of students and parents alike, something which strikes at the heart of learning and teaching, namely, discovery. Millbury can be proud of the fact that it is host to a new and innovative supplement to classroom teaching which has discovery as its soul. This program is called "Project Alert." "Alert" is an acronym for "Academic Learning Experience Revealing Talents". The program is an extension to the classroom curriculum and encourages participation and involvement by students in a variety of areas. Carole Chiras is the director of the program which has been in effect for two years, last year as a pilot project.

School Committee stepped in in support of the concept and the program was launched.

The program involves approximately 119 students from grades 3 through 7. Student selection is done very carefully. "Right now," Mrs. Chiras explained, "we have a high I.Q. score cut-off at 125. I then ask for recommendations from teachers and check the academic performances of the students." The reason for these high standards is that the students must do a great deal of work on their own and prospective students must be self-motivated in order to succeed in the program while maintaining their classroom standards.

Mrs. Chiras went on to explain the difficulties involved in establishing a program of this type. "There are no textbooks," she said, "so I have to gather and organize

Carole Chiras points to a rocket project completed by youngsters in the Project Alert program.

Mrs. Chiras explained that the origin of the program is as exciting as the project itself. "The concept originated before 2 1/2 in the form of parental inquiry. When 2 1/2 came, the system had to set up priorities and the project was forgotten." According to Mrs. Chiras, when the community learned how to deal with the effects of 2 1/2, parents again began expressing a desire for this type of program. The

the materials and the information that will help the students on the project that they will be working on." This is no small task, for coordinating the various resources, traditional and non-traditional, requires a significant amount of time, particularly because the students under Mrs. Chiras' direction choose the subject which will be

PUBLIC HEARING

MILLBURY. The Capital Budget Planning Committee will hold a proposed use hearing for the Revenue Sharing Funds to be appropriated in fiscal year 1987-1988. At this time there is a balance of $690,940.72 in the Revenue Sharing Account.

The hearing will be held on Thursday, March 5, 1987 at 7:30 p.m. at the Municipal Office Building, 127 Elm Street, Millbury MA. All citizens of the Town have a right to make comments regarding the use of the funds, either orally or written to the Capital Budget Planning Committee.

The Town of Millbury advises the public, employees and job applicants that it does not discriminate on the basis of handicapped status in admission or access to, or treatment or employment in, its programs and activities. The Town of Millbury has designated Earl Chase, Town Administrative Assistant, as the contact to co-ordinate efforts to comply with this requirement.

UMASS APPLICATIONS DUE BY MARCH 1

UXBRIDGE. Representative Richard T. Moore (D-Uxbridge) released information this week regarding applications for freshman admissions next fall to the University of Massachusetts at Amherst.

"High school seniors who are interested in attending UMass-Amherst should be sure that their applications reach the Admissions office by the March 1 deadline," explained Rep. Moore. "Because of the brisk competition for acceptance, the Admissions office is strict about the March 1 cutoff date. It would be a shame if individuals were eliminated from consideration due to late applications."

"For those individuals interested in transferring to UMass-Amherst next fall, the date to remember is April 1,"

CALENDAR OF EVENTS

WEDNESDAY, FEBRUARY 25

MILLBURY...The Millbury Parks and Recreation Commission will hold its annual meeting for the scheduling of all the Millbury playing fields for the upcoming season. Any league interested in using the fields should attend this meeting. The meeting will be held at 8:00 p.m. at the Municipal Office Building.

MILLBURY...Registration night for the Spring session of the Millbury Adult Education program from 7:00 to 8:00 p.m. at the High School Cafeteria.

THURSDAY, FEBRUARY 26

MILLBURY...Blood Pressure Clinic at the Colonial Apartments, Colonial Drive, from 1:00 to 2:00 p.m.

SUNDAY, MARCH 1

VOTERS DEBATE RESOURCE RECOVERY FACILITY BY–LAW AND APPROVE FUNDS FOR TRANSFER STATION SPECS

FEBRUARY 10, 1987

Town Moderator Janice Dawson called the Special Town meeting to order at 7:20 p.m. Following opening remarks, she proceeded to read Article 1, dealing with the authorization for funds to design, construct, and originally equip a so called "Transfer Station" at the Riverlin Street Landfill site.

Joseph Bianculli of Hilltop Drive, a representative of a group of citizens called Citizens for a Safe and Clean Millbury, stood to be recognized by the Moderator, and made a motion to place Articles 2-16 first on the agenda. "I, and 250 people petitioned the Articles and asked the Selectmen for a special Town Meeting," Bianculli said. "I am asking that these Articles be placed first. We feel that due courtesy should be afforded us."

Richard Dwinell of Gould Street, Chairman of the Solid Waste Committee, sponsors of Article I, spoke against Bianculli's motion, stating, "At the annual Town Meeting a committee was formulated by the Board of Selectmen to investigate a feasible way of disposing of our solid waste once the landfill is closed. Under that article it stipulated that we would report at a special town meeting at a future date. We notified the board of selectmen a long time ago that we would be prepared to present our recommendation at this town meeting. I think in fairness to everyone here we should take them in turn as they are written in the Warrant."

Mrs. Dawson explained that it would take a majority vote to approve Bianculli's motion. The final vote was 85 in favor of the motion and 162 against.

Article I was taken up again, and Gerry Bleau, Chairman of the Finance Committee made a recommendation that $50,000 be taken from Federal Revenue Sharing Funds and appropriated for plans and specifications for the construction of a transfer station.

The Moderator then recognized Richard Dwinell who proceeded to explain the reasons behind his committee's decision. "A Transfer station can handle all levels of solid waste,residential business and industry," Dwinell stated. "Curbside would cover just residential waste. Current Statistics show that curbside pickup would cost much more yearly than the cost of constructing and operating a transfer station. The Article that we are considering tonight will furnish the money to allow the town to hire an architect to prepare plans and specifications for the proposed plan. The town can then solicit bids to determine the cost of the transfer station. Once the cost is determined, a special town meeting would be held to see if the town would raise that money to build a structure."

Article 1 passed by a majority vote on a show of hands.

Article 2 was to be presented by the Moderator when Mr. Bianculli asked to be recognized. He moved to include and act upon Articles 2 through 16 as one. "I know that this has been done before," he said.

Moderator Dawson replied that, according to Town Counsel, it would be illegal.

Bianculli responded, "He is wrong."

Mrs. Dawson replied, "I have to respect his opinion."

Finance Committee Chairman Bleau then read the following recommendation: "The Finance Committee recommends that the Town Moderator appoint a committee of at least five people to include one representative from the Board of Selectmen, one representative from the Board of Health, two members of the Citizens For a Safe and Clean Millbury, and one citizen at large. This committee should utilize the expertise of the DEQE, legal counsel, safety experts, and whatever else is necessary in order to submit a clear, legally acceptable by-law for resource recovery facilities regulations. The committee shall be funded through the town counsel budget. At the next annual town meeting the committee shall initially report on funding requirements and criteria including specific contaminants and standards for pre-testing prior to the start up of the resource recovery facility."

VOTERS from Page 3

Mrs. Dawson then opened the floor for discussion.

Chairman of the Selectmen Wynton Adams, before addressing Article 2, acknowledge the actions of the School Committee in re-scheduling a basketball game slated for that evening. He thanked the School Committee, the Athletic Department, and the team for their cooperation. The audience responded with a round of applause.

Adams then suggested the following amendment to the motion made by the Finance Committee on Article 2: "That the moderator appoint a committee composed of the present members of the Resource Recovery Advisory Committee and three members at large, registered voters of the town of Millbury, at least one of whom shall be from the so-called Citizens for a Clean and Safe Millbury, for the purpose of reporting to a subsequent annual or special town meeting on the feasibility of establishing a general by-law for regulating the operation of resource recovery facilities within the boundaries of the Town of Millbury. Such committee shall have access to Town Counsel, and seek assistance from federal and state environmental protection agencies, DEQE, DEM and environmental and resource recovery industry professionals. The committee shall prepare a request for appropriate funding to be presented to the April 4, 1987, Annual town meeting."

Adams then went on at length to explain the reasons for the amendment: "We have had in place now for about sixteen months, a resource recovery advisory committee which was established to provide a means of communication between the community and the operators of the resource recovery facility. It had been the goal of that committee to keep it neutral and keep it in touch with the community and there are representatives of four town bodies on that committee. We feel that the issues can best be addressed by a group of individuals who have already become involved with the process and understand the problems being discussed. We recognize the need to include some of the people who have more recently expressed concerns about this type of a facility and therefore we suggest that it be expanded for this purpose."

Adams further explained that he had met with representatives of Signal Resco that day, and that they had agreed to pre-testing at the site. According to Adams, "They're even willing to go so far as to share in the cost of the pre-testing. They would want to do this through the structure that has already been established, and that is by working with the resource recovery advisory committee."

Ray Bricault, of JFK Drive, then questioned to whom Adams was referring when he stated "We would share...."

Adams replied, "I was totally misquoted. I said that the Signal Environmental Systems people had indicated that they would share in the cost of the pre-testing."

Martha Campolito, Hilltop Drive, then asked, "Who are they going to share this with?"

Adams answered, "Obviously with the Town. The initial motion that was presented by the Finance Committee requested that the Committee that would be formed would come back at the annual town meeting with a request for funding."

Mrs. Campolito then stated, "As far as the funding, if you look at those by-laws, we had an idea that if there were a surcharge on the hauler per ton that there would be enough money from that to pay for the testing and Millbury wouldn't have to pay a dime for the testing."

Adams replied, "What we're discussing at this time is not the by-laws that were presented and have not yet reached a point of discussion, but a motion made by the finance committee, and my amendment, that deals solely with pre-testing prior to any time that any waste will be delivered to that plant and prior to a period where any revenues could be realized from a surcharge."

Bianculli, speaking in opposition to the motion, argued, "The recommendation of the Finance committee is about 2 years too late. The structure of the committee suggested is questionable and leaves itself to be politically motivated. The citizens for a Safe and Clean Millbury have attempted to bring to you local laws governing resource recovery facilities, an attempt that should have been made by the town before any contract was signed. However, we have had no cooperation from the town. The regulations of Articles 3 through 16 are good regulations. They are intended to preserve the health and welfare of the citizens of Millbury. When you hear the words 'Modern Technology' and 'State of the Art', think about Chernobyl,...Three Mile Island....Union Carbide...The Challenger explosion...Love Canal. While discussing the article with the finance committee, one member referred to us as a 'special interest group'. Our only interest is the health and welfare of the residents of Millbury."

Richard Dwinell, speaking in favor of the motion, asked voters to give a committee a period of time to report back to the town. "Don't do it piecemeal by town by-laws. Do it by the report of a committee."

SUTTON TAX RATE EXPECTED SOON

By Karen Potter

SUTTON. The Board of Selectmen held their bi-weekly workshop meeting on February 10, 1987.

As guests of the Selectmen, the Board of Assessors presented a detailed explanation of the property rate setting process.

Robert Nunnemacher, chairman of the Board of Assessors, began the presentation by explaining the recapitulation sheets required by the Department of Revenue. He detailed each line on all four pages and described the verification requirements of each figure entered on the recap sheets.

The overall formula for determining the property tax rate is as follows:

- Spending authorized by the voters at town meetings held throughout the year, PLUS debt and interest, PLUS overlay, PLUS Blue Cross/Blue Shield, county assessment, and other expenses such as emergency snow removal.

Subtracted from that sum are receipts from the Commonwealth, local revenue received, and "free cash".

The remainder is the amount of money to be raised by taxation.

Simply put:

Dollars raised and allocated
- Dollars received from all sources

Dollars to be levied by taxation*

* must be within the limits imposed by Proposition 2 1/2.

The equitable distribution of property tax levy is determined by the relative value of real estate, improvement thereon, and personal property. These values are arrived at by physical assessment performed by the assessors and their authorized agents.

A key factor in arriving at the property tax rate is the correct classification of property. The Selectmen and the Assessors expect to hold a joint public hearing on property classification on Tuesday, February 17th, at 8:00 p.m.

The expectation of the Board of Assessors is that the Fiscal 1987 tax bills will be sent out as one bill. The bill will include two installments - October, 1986, and April, 1987. The first payment will be due within 30 days from the date of issue and the second will be due before May, 1987.

March 3 will see the start of the 1988 re-evaluation process which is expected to be completed in September of this year.

VOTERS from Page 4

Elizabeth Foley of Shirley Avenue then spoke in opposition to the amendment and asked voters to keep in mind that their health should be their primary concern. "You can talk about money until your deaf dumb and blind. If you don't have your health, you have nothing. This motion is too late. This plant plans to start testing on July 1. That plant will be operating for many months and we are going to be contaminated in the meantime. 6 million pounds of pollutants are going to be coming out of the chimney, dumping on us every year for 20 years - sulphur dioxide, carbon monoxide, nitrogen oxide, hydrogen chloride, sulfuric acid, beryllium lead, mercury, and hydrochloric acid, in addition to others. These are shown in the application. These gentlemen signed a 24 page contract with Signal Resco with not one word pertaining to public health."

Selectman Jude Cristo, asked residents to vote in favor of the Amendment "so that we can mutually work together to focus our efforts on all the present and future concerns that may arise on the operation of the resource recover facility."

Richard Phelan, Laurel Drive, speaking against the Amendment, stated that he felt the creation of a study committee was intended to deep six any action on all of the petitioned articles. He questioned whether or not the committee, if established, would be able to complete a study in eight weeks in time for the Annual Town meeting in April. Phelan stated, "These Articles that were written were really in the prime interest of the protection of this community."

The Amendment carried on a vote of 144 for and 115 against.

The meeting then moved quickly through the remaining 15 articles petitioned by the Citizens for a Safe and Clean Millbury. Articles 3-16 were "Indefinitely Postponed" by unanimous votes, as ruled by the Chair.

Article 17 was then presented, which requested a change in the by-law pertaining to persons not qualified as voters. This included members of the press and town employees, noting that they may be allowed to be seated on the main floor only after identification and a majority vote of the town meeting.

The Article passed on a unanimous vote.

Article 18, placed on the Warrant at the request of the Library Trustees, requested a transfer of monies to pay for a bill of $241.24. It was passed unanimously.

Article 19 requested a transfer of funds to be used to pay for Police overtime and training for fiscal 1987. Voters approved $22,000 to be transferred from free cash.

Article 20 sought to approve funding a pension for Millbury Fire Department members. The Finance Committee recommended Indefinite Postponement with Chairman Bleau stating that his committee needed more time to understand the impact of the Article.

John Donnelly, Selectman, and a fireman, urged the voters to defeat Indefinite Postponement. He explained that since Millbury call firefighters are considered part-time employees, they are not allowed to join the County retirement system. Donnelly also stated that the average age of the 67 man department falls between 20 and 30. "All our younger people have no pension whatsoever," Donnelly stated. "They get less than $1,000 a year to fight fires. We've been looking into this plan for over 2 years and this is the first plan that was acceptable to everyone." In addition, Donnelly explained that the plan will cover all 67 men and includes a pension plan, an insurance policy, and a disability policy.

The Moderator, on approval from the voters, allowed a representative of the designated insurance company to answer voter's questions.

Following a lengthy series of questions and answers, one voter, speaking for indefinite postponement, stated, "My only concern is that it's too little for too many dollars."

A vote was taken and Indefinite Postponement was defeated.

Donnelly then moved that $32,834.90 be transferred from revenue sharing to fund the firemen's pension fund plan and that the fire engineer's administer this plan under a point system. The motion was passed.

Article 21, the last Article on the Warrant, won unanimous endorsement. The Article requested a transfer of available funds for the sum of $30,000 for the landfill "other expense account" for equipment repairs.

This report was completed with the assistance of Edward J. Cooney.

DEADLINE FOR ALL SUBMISSIONS TO THE MILLBURY-SUTTON CHRONICLE IS 12:00 NOON ON SATURDAY OF THE WEEK PRIOR TO PUBLICATION.

What's the Difference?

By Pat O'Leary & Larry Ham

HOW TO PLAY: The answers to the two clues rhyme and the beginning consonant sounds are switched. For example: What's the difference between a neckwear fastener and a metal pan for baked desserts? One is a TIE PIN and the other is a PIE TIN. Sound counts, not spelling.

1. A "Three of hearts" in a saloon and a poet in an auto?
   A ____ in a ____ and a ____ in a ____
2. A hobo on a bender and a tom-tom on a ship's bed?
   A ____ on a ____ and a ____ on a ____
3. A felled pig and a hunting canine breed?
   A ____ and a ____
4. A cabby on the levee and a charlatan on the fodder?
   A ____ on the ____ and a ____ on the ____

10-31

ANSWERS: 1. A card in a bar and a beard in a car. 2. A bum on a drunk and a drum on a bunk. 3. A downed hog and a hound dog. 4. A hack on the quay and a quack on the hay.

AGE REQUIREMENT LOWERED FOR LOW INCOME HOUSING

MILLBURY. On December 9, 1986, Governor Dukakis signed Chapter 584, an act further regulating the qualifications for housing for certain elderly persons. This act, which amends Section 1 of Chapter 121B of the General Laws, established sixty-two (62) as the minimum age for eligibility in state-aided elderly housing.

Persons who are sixty-two (62) years and older will be age eligible effective March 9, 1987. As in the past, handicapped persons continue to be eligible for state-aided housing for the elderly regardless of age.

The current income limit to qualify for low income housing for the elderly/handicapped is as follows:

HOUSEHOLD SIZE 1: $13,300 Net Income Allowed

HOUSEHOLD SIZE 2: $15,200 Net Income Allowed

ASSET LIMIT: $15,000 per household

Applications may be picked up at the Millbury Housing Authority office located at 1 South Main Street or by calling 865-2660. Office hours are from 9:00 a.m. to 4:00 p.m., Monday through Friday, excepting holidays.

COUNSELING INSTITUTE BEGINS TRAINING PROGRAM

MILLBURY. The Central Massachusetts Institute for Pastoral Counseling, an inter-faith non-profit agency that seeks to serve persons of all walks of life and with all types of concerns, will begin its winter program for the training of parents living and working with their own teenagers on Thursday, February 26, at 7:30 p.m. The first presentation is an open and free invitation to explore the active parenting program and to obtain help in mastering parenting skills. It will be held at 366 Greenwood St., Millbury, just off Route 20 over the Worcester-Auburn line. Please call for further information. This lecture will be followed up by a mini-series which will be held in March.

BLOOD PRESSURE CLINIC

MILLBURY. On Thursday, February 26, there will be a Blood Pressure Clinic at the Colonial Apartments, Colonial Drive, from 1:00 to 2:00 p.m.

The District Nursing Society, serving residents of Millbury, Sutton, and neighboring communities, sponsors these clinic in an effort to educate the public about the importance of monitoring high blood pressure. The Society is in the business of providing health care to those who are healthy as well as to those who are ill. Plan now to attend a clinic soon.

MILLBURY COA MENUS

WEEK OF FEBRUARY 23

MONDAY: Pork Chop Suey, Chinese Noodles, Fried Rice, Oriental Blend, Rye Bread, Pineapple Chunks

TUESDAY: BRITISH DAY - Pot Roast w/Gravy, Bubble and Squeak (potatoes with cabbage), Vegetable Marrow (Squash), Biscuit Trifle

THURSDAY: Corn Chowder with crackers, Baked Fish with Tangy Seafood Sauce, Mashed Potatoes, Spinach, Wheat Bread, Peaches

FRIDAY: Turkey Stew with vegetables, Cottage Cheese with peaches, Bran Square, Fig Bar

"MIRACLE MILE" PLANNED TO AID FIGHT AGAINST MS

WORCESTER. On February 21 and 22, Sigma Pi Fraternity of Worcester Polytechnic Institute will be holding its second annual Miracle Mile in the Worcester Center Galleria. All benefits will go towards the nationwide fight against Multiple Sclerosis. This event will run from 10:00 a.m. to 5:00 p.m. on Saturday and 12:00 p.m. to 5:00 p.m. on Sunday. It is hoped that $16,000 (a mile of quarters placed end to end) will be raised.

The "MS Miracle Mile" project is being organized by Sigma Pi's Peter Giles with the support of 70 members of Sigma Pi Fraternity International at WPI. Paul Rocheleau, of Grafton Street in Millbury, a sophomore at WPI, will be joining his brothers as they attempt to surpass last year's record of $7,500.

Sigma Pi is now a member of Students Against Multiple Sclerosis (SAMS) which is a Nationwide effort to help "Bust MS".

The success of the Miracle Mile will only be possible through support and contributions from all of the people in the Worcester area. A phone-a-thon will also be held through Sunday February 22 to help this group meet their goal. If you are interested in offering a donation, the number to call is 756-1675.

Some of the events to be held at the Galleria over the weekend include a Treasure Chest game where you can win $1,000 in cash, and acts such as the Pepsi-BMX Bike team. In addition, students will be selling raffle tickets for the following prizes: Grand Prize, $600 Alpine Ski Package from the Sport Loft with stores in Fitchburg, Holden, and West Boylston; First Prize, a $500 shopping spree; Second Prize, $350 Bicycle Touring Package; and Third Prize, $350 Health and Entertainment Package.

HERE . . . THERE . . . EVERYWHERE
Bits 'n Pieces
. . . Joe Morin

CONFUCIUS SAY, "He who loves abundant snow is not playing with a full deck."

HI GOOD PEOPLE, 'tis only me back at the old computer keyboard putting a little something together for your perusal. Hope you like our little tidbits, comments, and/or opinions. How about that graphic/cartoon that was inserted in our last column of PeeWee and the Cat! Thanks to our Editor! It improved a somewhat bland column.

DID YOU KNOW...that liquor is the only item of consumption that does not require a table of contents listed on the bottle? Cereal, cake, everything else we might consume, have the ingredients listed on the package; booze is one of the exceptions. From what we hear, there is, or are, certain ingredients in liquor that are a no-no for the body (apart from having a hangover the next day). Yup, there is a certain chemical/ingredient that could be serious. How come we haven't been warned of it? (Personally I'm a coffee hound, but even that's bad for you too!) Good grief!

CAN'T BELIEVE IT DEPARTMENT...Was at the Fair, needed a stamp for a bill I wanted to mail. Spotted a stamp machine, looked at the price of a stamp. Guess what? Forty cents for a 22 cent stamp. Ripoff!! How about some banks that will charge you $1.00 for a bank money order!

A TIP OF THE HAT...to the Town Highway Department for the way they kept the streets open during the storms we've been having. You know, again, it's so easy to criticize, but the thank you's are not that numerous. Again, thanks to the Department for a job well done. A lot of people appreciate the job you are doing, but I suppose there were complaints; there will always be complaints. You can't please 'em all!

I DIDN'T KNOW THAT DEPARTMENT...In some hotels in Florida, they will now offer plastic surgery services--Yupp! You wanna get some work done on your bosom, face, derriere, etc.? They will do it. You can have a facelift, facelowered, bosom lift/lowered, or whatever, while you are on vacation. I would imagine that would take time. But the bill is added on to your hotel stay - what next?

MULTOS CONGRATULATIONS...to our new Auxiliary Bishop George Rueger. I'm sure all his friends and neighbors from the Millbury/Sutton area join with me in these congratulation wishes. Multos Annos of good health. God's love and assistance be with you.

ZOOM! ZOOM! It's heck to pay in some nursing homes in Florida. They're breaking the speed limit! The wheelchair speed limit, that is. Normally they're allowed to travel about 3 miles per hour, but some old timers have souped up their chairs to about 5 miles an hour.

OFFICER DUMMY! WHERE ARE YOU? In Texas, police have propped up a dummy dressed as a police officer in a parked patrol car at a very active highly traveled intersection. People actually slow down, naturally, when they spot the car, and what appears to be a police officer behind the wheel. In my opinion that's a good idea. Why can't we use dummies around here? I mean the mannequin type. Set one up at different locations around town, especially at Route 20. It just might work. Worcester, are you listening? You must have some dummies around not doing a thing. Put them to good use. Speaking of Route 20, a thought occurs to us. Why can't we erect a sign at the entrance to Route 20 which would read: "Are you prepared to meet your Maker? You will if you drive Route 20." T'ain't funny, McGee!

STILL IN THE DUMMY DEPARTMENT...A test was given to 625 college students aspiring to become teachers in the Connecticut area. Of the 625, 279 failed at least one section of the combination math, reading and writing test. I can see failing in math, but reading, writing? What are THEY doing in College? How did these kids make it to college in the first place! Evidently they must have had a sports scholarship, that's the only way they could have made it.

HOW MUCH FOR THE PILLS? That will be $49.50 sir. Good grief. I feel sick all over again after hearing that. Wouldn't it be interesting if we could follow a prescription from beginning to end? I mean let's start at the factory, the pill factory. How is the price of medication arrived at, from the factory to the wholesaler, the retailer and then, finally, the poor cuss that foots the bill for all. There must be one hell of a mark-up. Thank God they have those special plans for the elderly. It would be disastrous for them if they didn't.

ON THE LIGHT SIDE OF THINGS...Remember the hymn "Shall we gather by the River"? There will be no gathering by the river in a town in Pennsylvania after a load of 300,000 gallons of liquified manure was accidentally spilled in the river. They will have to gather elsewhere.

WE WERE SADDENED to hear the report about Mercy Killings in Holland. It seems that although it is against the law, in some special cases mercy killing is allowed. With the permission of the elderly and or dying, and having given them a lot of time to think of their actions, a doctor will put them to sleep, and while asleep give them a lethal injection. They say it's been going on now for a long time. They are trying to legalize this mercy killing in the Netherlands. I don't know, have we gotten this far that we are playing a role that belongs to the Almighty? It's only my thought/my opinion.

APPLE PIE A LA MANCHAUG...You wanna try something deelishous? Take a few apples, peel and cut into small sections and put in a bowl. Sprinkle with a little lemon juice. Add a little brown sugar, white sugar and cinnamon. Take a couple of egg whites, beat the heck out of them, then, when foamy, mix gently with the apple mixture. Put into a pie shell and bake for about 30 minutes until golden brown and apples are tender. WOW! (P.S. You could add some crushed walnuts if you like).

THE CLOCK IS TICKING AWAY...it's that time again friends to say Adieu for a while. We can't put the cat out, he never came back since the last time. He's got the love bug bad! Little PeeWee, I guess he's not the gallivanting type, he stays close to home. He had better. Take care good friends. Hope we haven't offended anyone. Let's take it all in fun. God be with you until next time. Peace!

MEETING from Page 1

With regard to hazardous waste spills, Nault noted, "There is hardly any mention at all of the fire department's role regarding spills. Again, I think that is essential. We are able to provide certain resources for spills and we do have access to emergency response and good mutual aid to help us."

Nault also had praise for the Plan noting, "Some of the things they have outlined are excellent. But as far as the decision making process involving fire fighting and spills with a potential of explosion and toxic fumes being released, this cannot be a debateable type of situation."

Responding to Nault's comments Jean Lewis stated, "This is not an adversary type negotiation. We appreciate these comments. We want to make this plan as effective as possible."

Before concluding his report, Nault brought up the issue of evacuation in the event of an accident at the plant. "There is an item in here specifically mentioning that, depending on the chemicals involved, depending on the extent of the spill or the potential ramification of a spill or fire with toxic fumes, a half mile in all directions would have to be evacuated. Just where this half mile boundary lies is a little foggy in my mind. I'm not sure where we're going to be going a half mile in all directions. Would that include other communities? How many people are we talking about? Who's going to actually carry out this evacuation? Where do these evacuated people go to? We can't wait for something to happen and say 'Where the heck is a half a mile here?' We have to be prepared."

Steve Ostrow of Polyclad was the next speaker to address the gathering. Ostrow gave a brief description of the company's product line, noting that they produce one product, laminates for printed circuit boards. He also mentioned that the company, whose sales volume is approximately $80 million a year, has additional facilities in California and New Hampshire. Ostrow reported that the company is working with the DEQE to install incinerator equipment and should meet a December 31 guideline.

Senator Houston, in concluding statements, expressed frustration that both companies had to be forced to implement pollution controls. "You obviously know," he said, "and have known, that you have something that, at the very least, has been irritating the people in the neighborhood. You admit that. And I find it tremendously aggravating that both companies have to be dragged in and threatened with legal action before they do anything about it."

HORACE MANN GRANT APPLICATIONS APPROVED IN SUTTON

By Paula Ducharme

At the February 9 meeting of the Sutton School Committee, the following Horace Mann grant applications were approved:

- "Positive Parenting", a program designed by pre-school teachers Catherine Counihan and Mary K. Doherty, is a group learning experience for parents of young children, designed to assist them in developing more effective ways to interact with their youngsters.

- Also approved was the application of English Department Head Beverly Johnson, whose project will make an in-depth assessment of the present English curriculum at the Sutton Junior-Senior High School, identify strengths and weaknesses, and develop a plan to improve the curriculum.

- The application of School Psychologist Jason Newton was also approved. Newton's objective is to develop a computerized student data base (PK-12), which will enable school officials to analyze student statistics in a more comprehensive way. The data base will form the basis for an enlarged data base which will contain more specialized information on the schools such as: staffing patterns, courses, grading patterns, and basic skills assessment.

- Also accepted was the application of High School Resource Room teacher, Deborah Kozik, whose project concerns the development of an additional special education classroom for grades 7-12. The proposed program is seen as an opportunity to make more quality time available for all special needs students at the high school level.

A Horace Mann Teacher may not be designated as such for more than two consecutive years, and must hold the appropriate Massachusetts Certificate for his or her regular teaching assignment. There are also requirements and project standards to be met by each applicant.

In addition to announcing application approvals, Superintendent Spence gave an update on the fiscal '87 budget, reporting it to be in "good shape". The Sutton School Committee will hold a public hearing on the proposed 1988 budget on Monday, March 9, in the Elementary School Auditorium at 7:00 p.m. The public is encouraged to attend.

GOLDEN AGERS UPDATE

By Lillian C. Sheehan

LINDEN APARTMENTS
CORRECTION

My error. Last week I mentioned the folks at the Linden Apartments met for their weekly socials on Thursdays; this was not correct. They play Bingo on the first and third Mondays of the month and Whist is played on the second and fourth Mondays of the month; each social offers prizes and refreshments and a chance to get out and socialize. All Senior Citizens are cordially invited to attend.

We had already congratulated Margaret Sharp on her birthday February 9th. What we neglected to say was that Margaret was 90 years young on the 9th. She is one of the active ladies at Linden, playing cards, bingo, and enjoying the many trips, whether they be organized by her own group or others. Many Happy Returns of the day. More power to a lovely lady.

POWER OF SILENCE

"It isn't wise to do much talking when you're mad enough to choke,

For the word that hits the hardest is the one that's never spoke

Let the other fellow do the talking till the storm has rolled away

Then he'll do a heap of thinking 'bout the things you didn't say!"

THE POOR LETTER "E"

"Someone has decided that the letter "E" is the most unfortunate letter in the alphabet. It is always out of cash, forever in debt, never out of danger, and always in hell. No little credit is due, however, in that it is never in war, and always in peace. And we are deeply indebted to the little letter since it is the beginning of existence, the commencement of ease, and the end of trouble. Without it there would be no meat, no life, and no heaven. It is the center of honesty, and although it starts off in error, it ends by making love perfect." Anon.

CENTERVIEW NOTES

Welcome home to Homer Welcom. Fortunately, his stay at the hospital was a short one.

Anna Hearns is a patient at Worcester City Hospital and we wish her a speedy recovery.

Tenant's meeting will be the last Tuesday of the month, at which time election of officers will take place. Tenants are urged to attend.

ON THE SHELF

By Rosemary Waltos

Whether you wear a blue collar or a white one, farm the land or vacuum the rug, you work. We all do. And Millbury residents will have a unique opportunity to explore working in America during a new reading and discussion series at the Millbury Public Library.

What consumes 40 hours a week, 2,000 hours a year?

WORKING

—it's making a living and making a life.

Let's Talk About It

Reading and Discussion Programs in America's Libraries

Call the library for details.

865-1181

or

757-2155

The series, "Making a Living, Making a Life: Work and Its Rewards in a Changing America", begins on March 24 at 10:00 a.m. at the Library and continues every other Tuesday for five sessions, through May 19.

This local program is part of a national project, sponsored by the American Library Association and funded by the National Endowment for the Humanities, that is helping libraries across the country put on reading and discussion programs. Millbury Public Library is one of a handful of libraries in the Commonwealth to be chosen for this project.

"Reading and discussing books is not a new idea" Professor Sarah Getty, state project director said. "But we're finding that there is a renewed interest among adults who are out of school, in reading books and then getting together to talk about what they've read."

Here in Millbury, several individuals have expressed an interest in discussing what they read. This led to the Library's first reading discussion group that met the beginning of this month. When the discussion ended, there was a definite sense of enthusiasm and excitement for the book discussed, and for the upcoming reading/discussion series.

Professor Getty explained that participants will read five books related to working in America. At each session, a visiting scholar will make a 30-minute presentation about one of the books, relating it to the overall theme. Small group discussions will follow. At the end, everyone comes together for a brief wrap-up.

The reading selections for the "Working" series promises an interesting variety of perspectives and personalities. The first book is Russell Baker's acclaimed autobiography, Growing Up. With good humor and great feeling, the popular New York Times columnist tells of his struggle to satisfy his mother's stern injunction to make something of himself.

Arthur Miller's timeless play, Death of a Salesman follows, with The Professor's House by Willa Cather, and Confessions of An Advertising Man by David Ogilvy. The series will end with Stud Terkel's classic, Working.

Professor Donald Cohen will introduce the theme and present Baker's book Tuesday morning. Cohen, looking forward to his upcoming presentation said, "It's refreshing to me to lead these discussion groups. The groups are always excited about what they've read and anxious to participate. There's an energy that I don't always find in classroom situations.

"We developed a series around the theme of working because men and women throughout the community, mo matter what their background, have experience and can relate to it," Getty said. "We are looking forward to a good turnout of folks, especially retired individuals interest in sinking their teeth into good books."

Those interested in participating in the "Making a Living, Making a Life" reading and discussion series, are encouraged to pre-register and pick up the first reading selection at the Library by March 21. For more information call the Library at 865-1181, or 757-2155.

DISTRICT NURSING SOCIETY TO HOLD ANNUAL MEETING

MILLBURY. The District Nursing Society will be holding its annual meeting on the evening of March 24. All people who are members of the Society are invited to attend. Please call Mrs. Yvonne Estabrook at the Society Office, 865-4373, before March 17, for detailed information.

HAVE YOU RETURNED YOUR CENSUS FORM?

MILLBURY. Anyone who has not returned or received a census form is asked to contact the Town Clerk's office as soon as possible.

ALERT from Page 1

studied and examined. "I meet with the kids and decide what topics they might be interested in. They will choose the final topic and will then set out doing the research and develop a project."

Project Alert, though it is limited to students with substantial ability, is not an elitist program. "In fact," according to Mrs. Chiras, "we do everything we can to subdue that impression. Students want to participate more because it is low-keyed." However, the rest of the student body does benefit in many ways from the program in that when a resource person is brought in to address the group or talk on an interesting subject, Mrs. Chiras extends an invitation to the entire student population.

Right now, Mrs. Chiras is trying an innovative technique. "I am piloting an approach in the third grade," she explained. "I go to all third grade classes and provide enrichment classes for them." This approach is an attempt to stimulate more interest among the students to succeed well enough to participate in the program later in their education.

The "Alert" students in the fourth and fifth grades are taught in groups of twelve or less. Sixth and seventh grade students are combined in classes and attend a three hour class for three Thursdays.

The students in Project Alert have participated in a variety of assignments. Recently, they completed a project on rocket pioneer, Dr. Robert Goddard. As part of their project, they visited the Goddard Museum and constructed rockets which they hope to launch some time later this year. Students, after substantial encouragement, also completed a project on the history of Millbury, taking on the personalities of a variety of Millbury residents who lived during the 19th century. They were asked to role play and try to think as their characters would have thought in that period.

What is exciting about this project is that it allows Mrs. Chiras to abandon the traditional educational methods and to employ her creative and imaginative instincts to open up the exciting world of learning to many students who are, by their very natures, curious and inquisitive. The program does not supersede nor undermine the traditional school day, but rather it supplements it by exposing the student to a variety of learning methods.

For Mrs. Chiras, Project Alert is "An opportunity for children to be futurists, historians, independent researchers. An opportunity to let them know that it is exciting to learn and that it need not be tedious."

On Friday, February 10, all students at Elmwood Street School in Millbury were treated to a delightful dental health play, "The Trials of Tillie the Tooth". The play was presented by Mrs. Baldino's reading class in celebration of February as National Children's Dental Health Month.

Millbury public students in grades K–7 are studying dental health during February as part of their comprehensive health education program.

SUTTON SENIOR NEWS

MENU

Friday, February 20: Onion Soup, Baked Fish, Rice Pilaf, etc.

Tuesday, February 24: BRITISH DAY (Pot Roast)

Wednesday, February 25: Spaghetti and Meatballs

FEBRUARY 27 PROGRAM

On Friday, February 27, we will put on a program from the Worcester Science Center on Volcanos. The program will run from 12:30 to 1:30 and everyone is invited.

FOOD DISTRIBUTION

We still have butter, cheese and flour left from our last food distribution. If you feel you are eligible, please call the office at 865-9798.

FRIENDS CLUB

The Friends of the Sutton Elders Club would like to thank everyone who participated in and stayed for their Valentine Day party. The beautiful cake was donated by Tony's Donut Shop, the candy by Chutes, and door prizes were donated by Friends. Fortunes told by the "Queen" were the hit of the party. The next Friends Club meeting will be on Tuesday, March 10 at 12:30.

SUTTON STUDENTS ATTEND CAREER PLANNING WORKSHOP

SUTTON. The Massachusetts National Guard "Career Planning Workshop" was conducted by Sgt. Laurie McGarry at Sutton High School on February 3, 4, and 5. The three day workshop involved 60 seniors and was presented during senior American Government classes. The presentation attempted to explain to students the realities of competition in the job market, the need for skills and/or education, and to make students more knowledgeable in areas of job interviews, applications information and resume writing.

A brief discussion regarding educational and job skill opportunities available through the National Guard concluded the workshop. The program was offered in conjunction with the guidance office.

Shared the Benefits of Low-Cost Car Loans!

The Millbury Credit Union offers low rates on both New and Used Car Loans...good loans for the vehicles *you* want, with low rates available year-round.

At MCU, you can choose from a variety of options...the amount and term of the loan, with life and health insurance, if you wish.

Don't be mislead by those "low, low rates" offered by some car dealers...rates which are often inflated by such hidden factors as sticker price, trade-in value, and "dealer participation".

Make the best deal you can...and then visit the Millbury Credit Union!

Share Our Success!
